DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of species B in the reply filed on 11/17/05 is acknowledged.
2. Claims 2-11 and 18-21 are hereby withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 11/17/05.

Drawings

3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 27 (locking device). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
4. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the windshield and side window of

Art Unit: 3612

claims 22-25 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

5. The incorporation of essential material in the specification by reference to an unpublished U.S. application, foreign application or patent, or to a publication is improper. Applicant is required to amend the disclosure to include the material incorporated by reference, if the material is relied upon to overcome any objection, rejection, or other requirement imposed by the Office. The amendment must be accompanied by a statement executed by the applicant, or a practitioner

representing the applicant, stating that the material being inserted is the material previously incorporated by reference and that the amendment contains no new matter. 37 CFR 1.57(f).

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1 and 26 are rejected under 35 U.S.C. 102(b) as being anticipated by Hoople.

Hoople (1,913,277) discloses a sun visor for a vehicle interior comprising: a body having a flat side that is movable from a non-used position (Figure 3) to an anti-glare position (Figure 1) and which can be pivoted from a first frontal anti-glare position to a second, lateral anti-glare position, wherein the body is guided by a guide device 20, 30 in such a manner that in the first anti-glare position and the second anti-glare position the same flat side of the body faces the vehicle interior.

For claim 26, Hoople '277 discloses a visor for a vehicle, comprising: a visor body 44; a spindle 40 coupled to the visor body; a first block 39 coupled to the spindle; a second block (not numbered, but the right-hand-most element of Figure 2) configured for attachment to the vehicle; at least one arm 2, 3 having a first end pivotally coupled to the first block and a second end pivotally coupled to the second block.

8. Claims 26-27 and 32 are rejected under 35 U.S.C. 102(b) as being anticipated by Hoople.

Art Unit: 3612

For claim 26, Hoople '277 discloses a visor for a vehicle, comprising: a visor body 44; a spindle 43 coupled to the visor body; a first block 39 indirectly coupled to the spindle; a second block (not numbered, but the right-hand-most element of Figure 2) configured for attachment to the vehicle; at least one arm 2, 3 having a first end pivotally coupled to the first block and a second end pivotally coupled to the second block.

With regard to claim 27, the at least one arm comprises a pair of arms 2, 3.

With regard to claim 32, the first block 39 is pivotally coupled to the spindle, via rod 40.

Allowable Subject Matter

9. Claims 22-25 are allowed.
10. Claims 12-17, 28-31, and 33 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
